

NATURAL RESOURCES

Our Natural Resources team focuses on handling large and complex claims arising from insured incidents across the natural resource sector including upstream, renewable as well as onshore energy and mining.

Expertise you can trust

We deal with some of the most high-profile claims presented to the insurance market, focusing on resolving physical damage and business interruption losses. We are well equipped with the skills and knowledge to service the Natural Resources industry as it makes the transition from traditional energy sources to more sustainable ones. We embrace new technologies and recruit talented and enthusiastic newcomers to the business, to meet these new challenges.

Upstream Energy

Including: offshore hydrocarbon exploration & production, offshore construction, control of well, operational equipment, subsea infrastructure, yard construction, hydrocarbon transportation, gas to liquid (FLNG), liquid to gas (FSRU).

Green Energy

Including: renewable energy and low carbon technologies, wind - onshore and offshore, solar - PV/CSP, tidal and wave, geothermal, hydroelectric, biomass, hydrogen production, carbon capture & storage, electrification.

Onshore Energy and Mining

Including: onshore hydrocarbon processing, gas to liquids, refining, petrochemical, power generation, gas/coal, nuclear, mining, all mineral/metal types, underground and open cut mining operations, materials handling systems.

About Charles Taylor

Charles Taylor provide an unrivalled and growing range of insurance services, claims and technology solutions across the globe. We specialise in complex situations requiring distinctive technical expertise and technology.

Working with clients, we aim to build long-term relationships spanning multiple value-creating solutions. Our services and solutions support every stage of the insurance lifecycle and every aspect of the insurance operating model, across all major commercial insurance lines as well as technical areas of personal insurance.

We serve a diversified international customer base that includes national and international insurance companies, mutuals, captives, MGAs, Lloyd's syndicates and reinsurers, along with brokers, distributors and corporate insureds. Every minute of every day, the Charles Taylor team works diligently around the world to overcome the challenges our clients face.
