

Charles Taylor Adjusting is a unique team of experts, offering a personal service to our clients anywhere in the world. We are leaders in the assessment and resolution of large and complex claims, today and tomorrow, no matter how intricate the challenge.

Our team of highly skilled adjusters are supported by surveyors, forensic accountants, cyber-crime experts and technical specialists, ensuring that whatever the problem, we have the exact capabilities, whenever and wherever our clients need us.

Expertise you can trust

We are recognised as a leader across all major adjusting lines:

Property

Our property team has significant expertise in handling and managing large and complex claims for insurers and reinsurers. Our team offers expertise in property insurance claims and solutions for commercial and residential markets.

Natural Resources

Our team focuses on handling large and complex losses arising from onshore and offshore exploration, development and production, power generation, renewable energy, petrochemicals, refining, mining, metals and associated industries.

Forensic Accounting

Our accounting services team provides assessments in economic damages to insurers, reinsurers, legal and corporate clients. We bring our qualified and technically trained staff to bear on adjusting and risk consultancy needs.

Construction & Engineering

Our team of multi-disciplinary construction and engineering experts brings a wealth of experience to settle claims quickly, collaboratively and professionally.

Liability

Our liability adjusters have detailed knowledge of claims in product/ environmental liability, product recall, financial loss, public liability, injury and personal accident, employers' liability and medical negligence.

Cyber

We offer cyber claims management that you can trust to deliver a rapid response, minimising any negative impact on client operations that are built on long-term relationships with insurers and brokers that are with a global reach.

Aviation

Our team of aviation experts deal with insurance claims ranging from complex repairs to complete loss of aircraft. We have worked on some of the most high-profile and complex aviation losses in the market.

Marine Technical Services

Charles Taylor Marine Technical Services provides impartial and independent surveying and consultancy services to the maritime industry. Our surveyors offer high quality bespoke services to underwriters, brokers, P&I clubs, ship owners, yacht owners, cargo owners, ship managers, ship builders/repairers.

Charles Taylor Adjusting Australia

We are focussed on delivering exceptional claims experiences for our clients and their customers.

We work diligently during every stage of the process to achieve a swift and successful resolution for our clients.

Across all our claims solutions, we achieve outstanding service quality and superior claims outcomes through world-leading talent and process excellence.
