

The choice
is simple

Once integrated, Antidote will help create efficiency benefits for you and enhance the customer journey.

Antidote is Charles Taylor Assistance online medical screening solution

Designed for your customer

- Faster and smarter
- Fluid and dynamic questions
- Minimal repetition

For the customer, Antidote will deliver

- A 30% reduction in standard questions. The journey becomes faster linked with intuitive technology it creates smarter outputs
- Whereas other platforms have up to 20 question sets CEGA has created question sets that have a logical process giving customers a more streamlined experience
- Intuitive technology, recognising conditions already declared. Removing the repetition.

Created for you

- Enhanced renewal and sales
- Meets regulatory pressures
- It's your data

For you, Antidote will deliver

- Sales and enhanced renewal. Guaranteed customer quotes will be honoured, supported by consistent adjustments and version control therefore speeding up the process.
- A fully compliant solution. We have the capacity and knowledge to ensure regulatory compliance and manage this ever-changing process.
- Data for you to analyse. We will work with you to review your data and profile performance levels.

No other provider will offer an enhanced version of medical screening.
